

Capitalize Unemployment Benefit

Beneficiaries of a contributory unemployment benefit due to the total and definitive cessation of an employment relationship may request early payment of their benefit if they still have to receive, at the date of requesting the single payment, at least three monthly payments.

Beneficiaries of the benefit for cessation of activity must have pending receipt for at least six months.

In both cases, those who have received the single payment, in any of its forms, in the immediately preceding four years are excluded.

It is mandatory to start the activity within a maximum period of one month from the resolution that grants the single payment, that is, register as Self-Employed, always on a date after the request. However, once the request has been made, the activity can be started and registered before receiving the resolution.

Documentation required by Ballemar Consultores Casares-Manilva to request the single payment of unemployment benefit:

- Digital certificate
- Valid DNI on both sides
- Application and Activity Report detailing the activity and investment to be carried out with amounts without VAT.

The single payment is exempt from personal income tax.
