Vehicle Transfer Quote

The purchase and sale of a car or motorcycle, as well as the change of ownership, are considered vehicle transfers with the Spanish General of Traffic Direction (DGT) and are subject to the corresponding taxes.

At Ballemar Casares?Manilva, we handle the entire process for you using a hybrid online/offline system. Although the process is electronic, the DGT requires the original documentation, and we guide you through the entire procedure.

To calculate the transfer fee, which we process in less than 48 hours, we only need:

Photos of all pages of the vehicle registration document
Photos of the vehicle's registration certificate

Fast, simple, and hassle-free
